Rombo My SPOT!

CONTROLS

Operated by Remote control (2 remotes included with each parking lock). Only your remote control can operate your parking lock. Other control options are also available.

POWER

1 x rechargeable battery (DC 6V); approximately 3 months or **1000 uses** till the battery needs recharging. Easily recharged on supplied power pack. Power warning light lets you know when the battery needs recharging.

WARNING ALARM

Your parking lock is fitted with an alarm to warn you when the parking lock hits an obstacle. The alarm will sound for approximately **15 seconds** and the rocker will move in the **opposite direction**. Be sure to move the obstacle. After the 15 seconds, the rocker will **reset** to its original position.

ANTI-THEFT

Once your parking lock is fitted to your parking spot floor, should anyone try to forcefully remove it, an alarm will sound. Your parking lock can endure **500 kg** of pressure without damage to the parking lock.

WATER / DUST PROOF

Your parking lock has been sealed to be waterproof and dustproof. This includes all internal mechanical and electrical components. Your parking lock is made of galvanized steel and finished with paint to endure all weather and water conditions. **IP Rating: IP55**
